

# Faces

Take a good look. Now turn her picture upside down and look again.

You look at something one way and it doesn't look too good. But, if you look at it from another angle, now it looks great.

This is how faith works. It doesn't change things. It changes how we see things such that what looked bad now looks good, or at least better.

A problem becomes an opportunity for faith.

Another problem becomes an opportunity for love.

Another thing that we don't have, something we just see from a distance, is still information that can help us imagine what life with God will be like.
